

EC-CERTIFICATE OF CONFORMITY

2204-CPD-0266.1-2011

In compliance with Directive 89/106/EEC of the European Communities Council of 21st December 1988 on the approximation of the laws, regulations and administrative provisions of the Member States relating to the construction products, with Ordinance no. 20/18.08.2010 regarding the measures intended for the unitary application of European Union legislation that harmonizes the product commissioning conditions and with Romanian Government Decision 622/2004 with subsequent additions and amendments relating to the conditions to place on the market the construction products and its further amendments, it is confirmed that the construction product:

SAFETY BARRIER,

Type: **AG 04 2.00**,
containment level N2;

normalised working width $W_N = 1$ m; class of normalised working width W3;
working width $W = 1$ m;

ASI = 0,94; impact severity index A; THIV = 31 km/h;

normalised dynamic deflection, $D_N = 0,91$ m; dynamic deflection, $D = 0,95$ m

Intended use: vehicle restraint system for circulation areas.

Placed on the market and manufactured in the factory by

ALKA Sanayi İnşaat ve Ticaret A.Ş.,

Değirmenyolu sok. No:17 C:1 Blok K:3, Kozyatağı - ISTANBUL/TURKEY

Phone: +90 262 67 66 400, fax: +90 262 65 80 993,

is subjected by the manufacturer to a factory production control and to further testing on samples taken from factory in accordance with a prescribed test plan and the notified body ICECON CERT has performed the initial inspection of factory and factory production control and performs the continuous surveillance, assessment and approval of the factory production control.

This certificate attests that all the provisions concerning the conformity assessment and the performances described in Annex ZA of the standard

EN 1317-5:2007+A1:2008

have been applied and the product fulfils all the prescribed requirements.

This certificate has been issued at 23rd December 2011 and remains valid until 29th May 2012, as long as the conditions laid down in the harmonized reference standard or the manufacturing conditions in the factory or the factory production control itself are not significantly modified.
